PROFESSIONAL PROFILE

Developer with a practical and self-taught approach, specializing in creating functional solutions through the integration of modern technologies and the advanced use of AI tools to optimize the development cycle and code quality. I possess strong problem-solving skills forged in demanding industrial environments. I am seeking a Full Stack Developer opportunity to apply my knowledge in Java and React, bringing commitment, quality, and a mindset focused on continuous improvement and efficiency.

TECHNICAL SKILLS

- **Backend:** Java (Spring Boot), Maven, PHP (Basic), Vercel Functions (Node.js).
- **Frontend:** JavaScript (ES6+), React (Vite), Tailwind CSS, HTML5, CSS3.
- **Cloud & DB:** Firebase (Firestore/Auth), MySQL, Vercel Hosting.
- **Tools:** Git, GitHub, NPM, Postman, Bash Scripting, VS Code.
- **IT Support:** PC Repair/Hardware Troubleshooting, Windows Server, Networking, and Basic Auditing.

FEATURED PROJECTS

KirinScript | Full Stack Developer | https://kirinscript.web.app

- **Development & Architecture:** Comprehensive web application built with React (Vite) and Firebase, structured under maintainability best practices (Custom Hooks and independent services).

- **API Integration & Security:** Implemented currency and weather API consumption, managing credential security via Vercel Serverless Functions.

- **Advanced Features:** Event management system using the YouTube API, real-time comment administration panel, and UX optimization using modern frontend logic.

- **Technical Ecosystem:** Use of NPM, Tailwind CSS, and a Java (Spring Boot / Maven) backend environment prepared for local processing and scalability.

WORK EXPERIENCE

DS Soportes | *Production Manager & Operator* | Mar 2015 – Nov 2024

- **Process Optimization:** Led the production chain, applying creative logic to solve bottlenecks.
  Key Achievement: Devised a drying acceleration method using controlled friction to meet urgent deadlines, reducing critical wait times.
- **Quality Management:** Oversaw quality in the manufacturing and modification of metal mounts/supports.
- **Field Operations:** Responsible for on-site home installations, ensuring customer satisfaction.

Abreu S.A. | *Blasting Operator* | Mar 2014 – Mar 2015

- **Surface Preparation:** Executed surface preparation via abrasive processes, maintaining high safety and precision standards.

EDUCATION & CERTIFICATIONS

Self-Taught Software Development | 2025 – Present

- Intensive focus on the Java ecosystem (Spring Boot) and modern Frontend with React.

Technical Certifications (Educentro) | 2015 – 2024

- PC & Network Repair | Windows Server 2003.
- Visual Basic .Net & 6.0 | PHP & MySQL.

Electronics Technician | EET N°1 Luis Piedra Buena | 2005 – 2010

LANGUAGES

- **Spanish:** Native.
- **English:** Technical (Reading and comprehension of technical documentation).
